Description

Introductory description

This module takes place in term 2 and is specially designed to introduce you to MFL curriculum and pedagogy in the Secondary school age range. You will explore your subject from a new perspective through engaging sessions at university led by teaching fellows and visiting teachers. Practical workshops will examine the content of Secondary MFL National Curriculum and how to address barriers to learning in MFL through the development of effective teaching approaches and resources.

The module is hosted by the Centre for Teacher Education (currently rated 'Outstanding' by OFSTED). Anyone who completes the module is automatically eligible for an interview for the Postgraduate Certificate in Education (PGCE) initial teacher training course (providing all entry requirements for Initial Teacher Training are met).

Module aims

1. To develop knowledge of MFL teaching in the UK education system and some of the

- approaches to learning that support secondary students in the subject.
2. To develop knowledge and understanding of MFL education and the secondary curriculum.
 3. To develop key transferable skills through engagement with 11-18 education.
 4. To develop skills in personal reflection on professional practice.
 5. To relate educational theory to education practice.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

The theory which underpins the practice of MFL teaching is explored through seminars led by CTE Teaching Fellows. The seminars begin by discussing the current context of the UK education system and national curriculum before exploring a range of key themes in education such as how students learn, how ideas develop in the school curriculum and using assessment for learning and specific aspects of pedagogy relating to the teaching of MFL.

As part of the module you engage in MFL education through developing materials, resources and teaching approaches to support learning in MFL. You will develop your practical understanding of the teaching of MFL. Indicative activities might include: developing learning resources, providing exemplar materials to a professional brief, producing online learning resources.

To prepare for and support you for this you will participate a series of workshops at the university. These are highly interactive, practice based sessions, delivered by visiting teachers from local secondary schools. Sessions cover topics such as pitching and sequencing resources to support learning, overcoming barriers to learning and effective questioning.

Learning outcomes

By the end of the module, students should be able to:

- LO1 Critically analyse and reflect on key issues in MFL education in school.
- LO2 Critically reflect on practice in teaching MFL in school.
- LO3 Apply learning theory to school MFL teaching practices.
- LO4 Demonstrate professional skills in supporting learning in MFL.
