

EQ310-15 Introduction to Special Educational Needs and Disability

20/21

Department

Education Studies

Level

Undergraduate Level 3

Module leader

Dimitra Hartas

Credit value

15

Module duration

10 weeks

Assessment

100% coursework

Study location

University of Warwick main campus, Coventry

Description

Introductory description

An introduction to Special Educational Needs for undergraduate students

[Module web page](#)

Module aims

- To develop students' awareness of inclusion as a theoretical and practical process
- To broaden students' knowledge of SEN policy and procedures
- To provide opportunities for students to understand and apply the principle of early identification and assessment
- To introduce students to issues related to definition, characteristics and learning requirements of children with Dyslexia, Autistic Spectrum Disorders and Language Difficulties.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

Week 1: Introduction: The Changing Nature of Special Educational Needs and Inclusive Education. The new Children and Families Act 2014.

Week 2 Inclusion: theoretical and practical perspectives and the principles of inclusive practice.

Week 3 Specific Learning Difficulties: Dyslexia

Week 4 Child Language Development, Difficulties & Issues of Assessment and Identification

Week 5 Language difficulties or language difference? EAL, Bilingualism and Language Difficulties and their impact on academic performance

Week 6 Co-existence between Language and other conditions: Eg, Language and Emotional/Behavioural Difficulties in Children

Week 7 Autistic-Spectrum Difficulties: Identification, assessment and provision

Week 8 Integrated working in support of children with SEN

Week 9 Group tutorials

Week 10 Student group work and presentations - Course Review

Learning outcomes

By the end of the module, students should be able to:

- Develop a systematic, coherent and critical knowledge and understanding of areas of need such as specific learning difficulties (developmental dyslexia), autistic-spectrum disorders; and language difficulties
- Develop a conceptual understanding of the implications of educational research and the way it shapes policy and practice with regard to special educational needs
- Develop a critical understanding of pedagogy and classroom practice in the special needs context, devising and sustaining arguments that consolidate and may extend knowledge
- Explore the notion of working with parents and other professionals, as well as issues of integrated working
- Accurately deploy established research skills appropriate to the discipline
- Identify a range of appropriate solutions based on a critical evaluation of policies and practices that challenge issues about inclusion and specific additional services for children
- Develop a conceptual and systematic understanding of the importance of early diagnosis and intervention

Subject specific skills

- apply multiple perspectives to special educational needs and disability issues, recognising that this area involves a range of research methods, theories, evidence and applications
- integrate ideas and findings across the multiple perspectives in special educational needs and disabilities
- constructively critique theories, practice and research in the area of special educational needs and disabilities
- demonstrate knowledge and awareness of the skills needed for different pedagogical approaches
- the formation and promotion of mutually respectful relationships with families, colleagues, other professionals and communities
- lead, support and work collaboratively with others and demonstrate an understanding of working effectively in teams with parents, carers and other professionals
- produce critical arguments for improvements to multi-agency and multi-professional practices for children and young people with special educational needs and disabilities
- reflect upon the ethics of studying children with special educational needs and disabilities
- generate and explore hypotheses and research questions relating to special educational needs and disabilities
- demonstrate a critical understanding of the interrelationships between political, economic, cultural and ideological contexts in the lives of children and young people with special educational needs and disabilities

Transferable skills

- Character/personality
- Cognitive flexibility
- Common sense
- Communication skills
- Complex problem solving
- Confidence
- Coordinating with others
- Critical thinking
- Emotional intelligence
- Initiative and also follow instructions
- Intellectual ability
- International cultural awareness
- Interpersonal and communication
- Judgement and decision making
- Leadership

- Literacy
- Management of learning
- Motivation, tenacity, commitment
- Personal development skills
- Persuading/influencing
- Planning and organisational skills
- Problem solving
- Reasoning
- Self-management/resilience
- Stakeholder and organisational awareness
- Team working
- Using IT effectively

Study

Study time

Type	Required	Optional
Lectures	10 sessions of 1 hour (7%)	
Seminars	10 sessions of 2 hours (13%)	
Tutorials	(0%)	1 session of 15 minutes
Private study	120 hours (80%)	
Total	150 hours	

Private study description

Independent study hours include background reading, completing reading/other tasks in preparation for timetabled teaching sessions, undertaking research using the library resources, follow-up reading work, working on individual and group projects, the completion of formative and summative assignments, revision.

Costs

No further costs have been identified for this module.

Assessment

You must pass all assessment components to pass the module.

Assessment group A

Weighting**Study time****Eligible for self-
certification****Assessment component**

Exam Week

100%

Yes (extension)

This assessment will take the form of an 'Exam Week'. In a specified week after the teaching on the module has finished, students will answer a series of questions in essay form (working to a maximum overall word limit). The questions will be made available on the Monday morning and students will have until the Friday afternoon to complete the assessment. The module leader will confirm the exact specification of this assessment once the module teaching begins.

Reassessment component is the same

Feedback on assessment

Cohort feedback.
