

ES3A4-15 CAD/CAM and Simulation

20/21

Department

School of Engineering

Level

Undergraduate Level 3

Module leader

Helen Neal

Credit value

15

Module duration

20 weeks

Assessment

100% coursework

Study locations

University of Warwick main campus, Coventry Primary

Distance or Online Delivery

Description

Introductory description

ES3A4-15 CAD/CAM and Simulation

[Module web page](#)

Module aims

This module provides an overview of CAD/CAM for 3rd Year students. Both theoretical concepts and practical applications are covered. The CAM element links into the Manufacturing aims of the module while the CAD element links directly with the engineering aims. It also provides an introduction to discrete part simulation.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

CAD

- Introduction

- Geometric modelling, curves surfaces and solids
- Applications, geometric properties, 3D visualization, Design Analysis, Rapid Prototyping and tooling
- Data Exchange: neutral file formats, exchange formats, translators.
- PDM and PLM
CAM
- Introduction
- Machine tools
- NC Basics, Tool path generation, Machining strategies.
Simulation
- Basic theory of simulation, Business applications.

Learning outcomes

By the end of the module, students should be able to:

- Design engineering components to meet design constraints
- Create Engineering Drawings to fully and clearly define manufacturing and assembly requirements of components.
- Plan manufacturing operations and create manufacturing instructions for components.
- Apply knowledge of CAD/CAM tools and technologies to propose strategies to enhance engineering design and manufacture in familiar products.
- Apply design and manufacturing methods to solve engineering problems.
- Present solutions to engineering problems in a concise and informative way.
- Reflect on areas of personal learning across the module.

Indicative reading list

Chang, K. e-Design: Computer-Aided Engineering Design Academic Press 2016, ISBN: 0128095695. McMahon, C. CAD/CAM: Principles, Practice and Manufacturing Management (2nd Edition) Addison-Wesley 1998, ISBN: 0201178192
Lee, K. Principles of CAD/CAM/CAE Systems Addison-Wesley 1999, ISBN: 0201380366
Zeid, I. Mastering CAD/CAM McGraw Hill 2004, ISBN: 0072868457.

Subject specific skills

- Ability to conceive, make and realise a component, product, system or process
- Ability to be pragmatic, taking a systematic approach and the logical and practical steps necessary for, often complex, concepts to become reality
- Ability to seek to achieve sustainable solutions to problems and have strategies for being creative and innovative
- Ability to be risk, cost and value-conscious, and aware of their ethical, social, cultural, environmental, health and safety, and wider professional engineering responsibilities

Transferable skills

- Apply problem solving skills, information retrieval, and the effective use of general IT facilities
 - Communicate (written and oral; to technical and non-technical audiences) and work with others
 - Plan self-learning and improve performance, as the foundation for lifelong learning/CPD
 - Exercise initiative and personal responsibility, including time management, which may be as a team member or leader
 - Appreciation of the global dimensions of engineering, commerce and communication.
 - Be professional in their outlook, be capable of team working, be effective communicators, and be able to exercise responsibility and sound management approaches.
-

Study

Study time

Type	Required
Lectures	6 sessions of 1 hour (4%)
Demonstrations	2 sessions of 1 hour (1%)
Supervised practical classes	10 sessions of 2 hours (13%)
Online learning (independent)	10 sessions of 1 hour (7%)
Private study	112 hours (75%)
Total	150 hours

Private study description

Guided independent and group learning: 112 hours

Costs

No further costs have been identified for this module.

Assessment

You must pass all assessment components to pass the module.

Students can register for this module without taking any assessment.

Assessment group A1

	Weighting	Study time
Group Design Progress Poster	20%	

	Weighting	Study time
The group must produce a poster to show progress on the group project (includes peer assessment)		
Group Design Report	40%	
The group must produce a report of the project (includes peer assessment)		
Individual Portfolio	40%	
A portfolio of the student's contribution to the group project and reflection on personal learning		

Feedback on assessment

Written feedback for group poster

Written feedback for group report

Written feedback for individual portfolio

Availability

Pre-requisites

Completion of 1st and 2nd years of the course.

Courses

This module is Core for:

- Year 3 of UESA-H335 BEng Automotive Engineering
- Year 4 of UESA-H334 BEng Automotive Engineering with Intercalated Year
- Year 3 of UESA-HH73 BEng Manufacturing and Mechanical Engineering
- Year 3 of UESA-HH75 BEng Manufacturing and Mechanical Engineering
- Year 4 of UESA-HH74 BEng Manufacturing and Mechanical Engineering with Intercalated Year
- Year 3 of UESA-H336 MEng Automotive Engineering
- Year 3 of UESA-HH76 MEng Manufacturing and Mechanical Engineering
- UESA-HH38 MEng Manufacturing and Mechanical Engineering with Intercalated Year
 - Year 3 of HH38 Manufacturing and Mechanical Engineering with Intercalated Year MEng
 - Year 4 of HH38 Manufacturing and Mechanical Engineering with Intercalated Year MEng

This module is Core optional for:

- Year 4 of UESA-H337 MEng Automotive Engineering with Intercalated Year
- Year 3 of UESA-H115 MEng Engineering with Intercalated Year
- UESA-HH38 MEng Manufacturing and Mechanical Engineering with Intercalated Year

- Year 3 of HH38 Manufacturing and Mechanical Engineering with Intercalated Year MEng
- Year 4 of HH38 Manufacturing and Mechanical Engineering with Intercalated Year MEng
- Year 4 of UESA-HH77 MEng Manufacturing and Mechanical Engineering with Intercalated Year

This module is Optional for:

- Year 3 of UESA-H113 BEng Engineering
- Year 3 of UESA-H114 MEng Engineering
- Year 4 of UESA-H115 MEng Engineering with Intercalated Year

This module is Option list A for:

- Year 4 of UESA-H111 BEng Engineering with Intercalated Year
- UESA-H112 BSc Engineering
 - Year 3 of H112 Engineering
 - Year 3 of H112 Engineering

This module is Option list B for:

- Year 3 of UESA-HN12 BEng Engineering Business Management
- Year 3 of UESA-HN15 BEng Engineering Business Management
- Year 4 of UESA-HN13 BEng Engineering Business Management with Intercalated Year
