### Module aims

This module aims to introduce students to different processes and practices involved in managing people at work. It seeks to develop a critical understanding of a range of conceptual, theoretical and practical issues. We will explore and evaluate different approaches to managing people, considering different contexts and stages of the employment cycle. It will be of value to students seeking managerial positions and, more generally, to those interested in analysing the management of people at work

### Outline syllabus

### Other activity description

1x hour Camtasia videos. These are recorded as 6 x 10 minute video podcasts and accessible via my.wbs from the outset of the course. Subjects covered in the podcasts included the three cross-curricular themes (control and commitment; rhetoric and reality; the role of the HR function ); how to read journal articles and take notes; and critical HRM (a topic students sometimes find difficult to follow in class). Students can access these podcasts either before or after lectures in order to deepen learning and to extend the learning environment beyond the confines of the classroom. 2 videos have already been recorded with the support of Dot Powell and Laura Craddock in e-learning. 4 further videos to be recorded in Term 3 - support for developing these has been discussed with elearning. In addition to the above, an FAQs section is included on the my.wbs module page for IB3620 and student questions are submitted and updated on a weekly basis. This facilitates consistency of information and prevents students from repeatedly asking the same questions (e.g. about accessing module readings) on an individual basis.
