Module duration

10 weeks

Assessment

100% coursework

Study location

University of Warwick main campus, Coventry

Description

Introductory description

A quick read of most of our daily news highlights how we are facing a number of significant global risks. Sustainability, diversity loss, climate change, global warming, data privacy, trade wars, and rising inequality are key current global risks. How should or can today's manager respond to these risks?

In this module we analyse the most significant social issues encountered by the contemporary managers. Some of the 'social' or non-market issues we explore include:

surveillance and data privacy ,
business and human rights ,
labour rights in supply chains , and
sustainability and climate change .

However, we go beyond a simple one dimensional business perspective to explore these issues as risks to the environment and risks to communities, as well as risks to business; in doing so, we adopt a multi-risk perspective.

[Module web page](#)

Module aims

To enable students to understand the wider social and political environment of business activity.

To examine the different forms of governance to which firms are subject, and to which they in turn contribute through the lens of key non-market issues.

To examine how companies use corporate political activity, corporate social responsibility, and corporate governance to navigate contemporary opportunities and challenges arising from a multinational company's social, natural, political, and regulatory environment.

To present empirical puzzles through case studies and other examples, and to present concepts, theories and wider evidence to enable these puzzles to be understood.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

Module Introduction and ESG Risk Management
Sustainability and Private Environmental Governance
Governance: Corporate Responsibility vs Corporate Accountability
Transnational Labour Governance
Corporate Responses to Ethical Consumers
'Trust Me': Non-financial Reporting
Social Risks: Big Data or Big Brother?
Business and Human Rights: Conflict Minerals
Led by Inferiors? Business and Politics
Academic Writing, Assessment, and Assignment

Learning outcomes

By the end of the module, students should be able to:

- Understand and recognise the different risks in a firm's natural, social, and political environments.
- Understand and recognise the different forms of socio-economic governance that surrounds business activity, particularly MNC activity, and the constraints and opportunities that they present to firms.
- Understand and recognise different range of possible managerial responses in addressing global risks in a firm's natural, social, and political environments.
- Demonstrate the use of critical analysis skills at the appropriate level for 1st year undergraduate learning.
- Demonstrate the ability to evaluate the quality of evidence.
- Demonstrate the ability to link themes and multi-disciplinary approaches together.

Indicative reading list

There is no single core text that covers this set of issues and concerns. The module will draw on assigned readings from a range of texts, eg:

Bebbington, J., Larrinaga, C. and Moneva, J.M., 2008. Corporate social reporting and reputation risk management. *Accounting, Auditing & Accountability Journal*, 21(3), pp.337-361.

Bekefi, T. and Epstein, M.J., 2008. Measuring and managing social and political risk. *Strategic*

Finance, 89(8), p.33.

Brennan, N.M. and Solomon, J. (2008). 'Corporate governance, accountability and mechanisms of accountability: An overview', *Accounting, Auditing and Accountability Journal*, 21(7): 885-906.

Contractor, F.J., 2016. Tax avoidance by multinational companies: Methods, policies, and ethics. *AIB Insights*, 16(2), p.10.

Subject specific skills

Demonstrate analytical skills at the appropriate level for 1st year undergraduate learning.

Transferable skills

Demonstrate:

- a) an ability to learn from and make use of written reference material;
 - b) demonstrate development of research skills; and
 - c) demonstrate an ability to apply abstract concepts to practical cases.
-

Study

Study time

Type	Required
Lectures	20 sessions of 1 hour (13%)
Seminars	9 sessions of 1 hour (6%)
Private study	47 hours (31%)
Assessment	74 hours (49%)
Total	150 hours

Private study description

Private Study.

Costs

No further costs have been identified for this module.

Assessment

You do not need to pass all assessment components to pass the module.

Assessment group A2

	Weighting	Study time
Individual Assignment	75%	54 hours
Essay Assignment		
Group Presentation	15%	11 hours
Seminar presentation.		
Participation	10%	9 hours
Participation in activities on a weekly basis via my.wbs		

Feedback on assessment

Students will be provided feedback in class and via my.wbs.
