Module aims

This module aims to provide students with an understanding of some of the major theories of accounting, the regulatory environment for financial reporting, and the techniques underlying current reporting practice. It will also enable students to prepare, read, critically evaluate and interpret published financial statements, assess profit performance and understand the information requirements of investors and a wider stakeholder group.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

The underpinning conceptual framework

- The objectives of financial reporting and the qualitative characteristics of financial information

- The IASB's Conceptual Framework
- The elements of financial reporting and their recognition and presentation
- Measurement in financial reporting
- The regulatory framework of financial reporting
- Statutory legislation – UK Companies Acts
- True and fair
- The IASB and international financial reporting standards (IASs and IFRSs)
The information needs of a wider stakeholder group
- An introduction to corporate governance
- Ethics in financial reporting
Published financial statements and accounting regulation
- The format of published accounts, accounting policies and disclosure
- Reporting performance – discontinued operations, estimates and judgement
- Revenue from contracts with customers
- Assessing performance – measures used by investors including earnings per share, operating segment analysis

Learning outcomes

By the end of the module, students should be able to:

- Understand how to evaluate and interpret published earnings measures and the information requirements of the investor.
- Demonstrate an understanding of the regulatory framework of financial reporting, the conceptual framework, the characteristics of high quality financial information and the significance of different measurement models.
- Demonstrate an understanding of the information needs of all stakeholders including issues relating to corporate governance, sustainability and ethics.
- Demonstrate detailed knowledge of published financial statements formats, disclosure and the regulations, concepts and conventions used in preparing statement of profit or loss entries.
- Assess the nature of accounting information and describe the relationships between different types of financial statements and accounting numbers.
- Understand the theoretical basis for accounting and the effect this has upon accounting practices.
- Critically evaluate and interpret accounting numbers and the use of accounting policies.
