Module aims

To build upon Financial Reporting 1.

To develop the ability to prepare, critically evaluate and interpret detailed information to be included in published financial statements.

To develop students' understanding of the theories of accounting, the regulatory environment for financial reporting, and the structure of group financial statements.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

Published financial statements and financial reporting regulation

Topics from:

- Non-current assets and impairment
- Leases
- Intangible assets
- Financial instruments
- Inventories
- Provisions, contingencies and events after the reporting period

The definition of the reporting entity and preparation of group financial statements

- The concept of control, group structures, consolidation after the date of acquisition, shares, reserves, fair value, equity accounting, levels of aggregation.
- Special purpose entities, joint arrangements and off balance-sheet finance.

Current developments in financial reporting.

Learning outcomes

By the end of the module, students should be able to:

- Demonstrate detailed knowledge of published financial statements formats, disclosure and the regulations and underpinning concepts used in preparing key financial statement entries.
- Understand the definition of the reporting entity, the concept of control, levels of aggregation of accounting information and off-balance sheet activities.
- Demonstrate knowledge of the concepts and conventions in the preparation of group financial statements.
- Demonstrate awareness of current developments in financial reporting theory and practices.
- Assess the nature of accounting information and be able to describe the relationships between different types of financial statements and accounting numbers.
- Understanding of the theoretical basis of accounting and the effect this has upon accounting practices.
- Critically evaluate and interpret accounting numbers and the use of accounting policies.
- Develop and demonstrate analytical, and problem solving skills.
