

PS367-15 Psychology Across Cultures

21/22

Department

Psychology

Level

Undergraduate Level 3

Module leader

Robin Goodwin

Credit value

15

Module duration

12 weeks

Assessment

33% coursework, 67% exam

Study location

University of Warwick main campus, Coventry

Description

Introductory description

In a fast-changing world, “Psychology Across Cultures” explores how and why people’s basic psychological processes, values and behaviour differ across cultures and what this implies for psychological theory and application.

[Module web page](#)

Module aims

The module highlights the importance of a cross-cultural perspective for understanding and explaining different contemporary issues such as migration, ethnic conflicts, globalisation and cultural change. In academic terms, the module aims to develop the students’ understanding of the fundamental concepts and theoretical perspectives pertinent to the study of culture and human behaviour

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

1. Introduction to the module; understanding culture
2. The role of values and beliefs in cultural variation
3. Culture and the self
4. Culture and emotion
5. Personality across cultures
6. Culture and health
7. Culture in the workplace
8. Relationship variations across cultures 1: Forming relationships
9. Relationship variations across cultures 2: Family and children
10. Moving cultures
11. Revision lecture 1
12. Revision lecture 2

Learning outcomes

By the end of the module, students should be able to:

- demonstrate a critical knowledge of how major psychological findings vary across cultures;
- demonstrate a critical understanding of the major concepts and theoretical perspectives in cross-cultural psychology;
- evaluate the relative contributions of values, beliefs and ecology to the understanding of cultural variations in psychology;
- demonstrate a critical awareness of the key methods used in cross-cultural psychology
- understand and critically evaluate their own cultural values, norms and assumptions.

Subject specific skills

- critical understanding of the major concepts and theoretical perspectives in cross-cultural psychology
- knowledge of major psychological findings and variance of these across cultures
- critical evaluation of personal cultural values, norms and assumptions.

Transferable skills

- effective communication skills to develop a cogent argument supported by relevant evidence and being sensitive to the needs and expectations of an audience;

- familiarity with collecting and organising stored information found in library book and journal collections, and online, critically evaluating primary and secondary sources;
 - effective personal planning skills
-

Study

Study time

Type	Required
Lectures	12 sessions of 2 hours (16%)
Seminars	10 sessions of 1 hour (7%)
Private study	116 hours (77%)
Total	150 hours

Private study description

116 hours guided student study & assessment preparation

Costs

No further costs have been identified for this module.

Assessment

You do not need to pass all assessment components to pass the module.

Assessment group D1

	Weighting	Study time	Eligible for self-certification
Assessment component			
Report	33%		Yes (extension)
Written report (1,500 words) based on an interview with a member of another culture.			

Reassessment component is the same

	Weighting	Study time	Eligible for self-certification
Assessment component			
Online Examination	67%		No

- Online examination: No Answerbook required

Reassessment component is the same

Feedback on assessment

Detailed academic guidance form for assessed work; Academic and peer feedback forms for interview; exam results online.📄📄📄📄
