Module aims

This course aims at developing understanding and knowledge of key criminological perspectives.

The module will encourage students to reflect on different assumptions and ideologies behind these different perspectives. Students will develop the necessary analytical, theoretical and critical skills to examine sociological and criminological theoretical perspectives to complex social issues.

Key aims include:

The intended learning outcomes and, as appropriate, their relationship to the Subject Benchmarks for Criminology and the programme learning outcomes.

On successful completion of this module, students will be able to show: be able to critically appraise the intellectual contribution of each school of criminological thought and be able to apply criminological theory to a broad range of contemporary problems of crime ,social inequality disorder and social harm.

- Progression in ability to present arguments in oral form, through developing skills in seminar presentation. Group members will ask and respond to questions in a bid to facilitate discussion.
- Be able to identify, retrieve and interpret information on patterns of gender, victimisation an crime and to relate these to specific debates and issues.
- Advancement of existing skills in regard to the organisation of information in a clear and coherent manner, through essay writing, and seminar-based group discussion of completed essays.
- Be able to gather, retrieve and synthesise data and information from different schools and disciplines of enquiry.
- Show progression in development of research skills through advanced library investigation, critical debate and essay writing. - Develop enhanced research and organisational skills by using library e-journal and other on-line resources.

Outline syllabus

Subject specific skills

To demonstrate knowledge and understanding with the development of criminological theory

To demonstrate knowledge and understanding of criminological theory and be able to apply criminological perspectives to different social contexts

To compare and contrast different theoretical approaches.

Identify key contributions that sociological and criminological thought has made to the study of deviance.

- Evaluate strengths and limitations in theoretical approaches

Transferable skills

- Undertake independent, desk-based research and essay writing skills. These include: A) the gathering of appropriate library and web-based resources that are appropriate for UG level 4. B) Making theoretical, methodological and empirical evaluations and C) using the available evidence to construct and synthesise an argument both orally and in the written form.
 - Demonstrate effective time management skills.
 - Manage complex information and demonstrate critical analytical skills.
-

Study

Study time

Type	Required
Lectures	9 sessions of 1 hour (6%)
Seminars	9 sessions of 1 hour (6%)
Private study	132 hours (88%)
Total	150 hours

Private study description

Reading for seminars.

Preparation for seminars.

Preparation and writing of formative work.

Preparation and writing of summative work.

Other work related to assessment.

Costs

No further costs have been identified for this module.

Assessment

You must pass all assessment components to pass the module.

Students can register for this module without taking any assessment.

Assessment group A1

	Weighting	Study time
Assessed essays/coursework	100%	
Essay		

Feedback on assessment

The last seminar of the module will be skills-based and students will be asked to bring to class a one-page \r\nessay outline so that they can get informal feedback on it before the submission of their essay.
