Module aims

This module builds upon GCSE Latin (or Latin Language 1). It aims to improve students' knowledge of Latin grammar, syntax and vocabulary, to allow them to begin to read unedited classical Latin texts in poetry and prose. These Latin texts will be chosen for their intrinsic interest as well as for the opportunities they present to students to deepen their understanding of the language. Students will also be introduced to close reading skills, basic philological skills including technical terms and using a classical commentary, and will gain experience in unseen translation.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.
