Study location

University of Warwick main campus, Coventry

Description

Introductory description

This module aims at providing students with a solid understanding of key elements in critical theory from the original framework of the Frankfurt School to contemporary developments. Students will relate critical theory with social and political issues in historical context and in the present and will develop understanding of race, gender, and class issues in a theoretical perspective.

Students will develop a solid understanding of various forms of critical and cultural theory that understand literary texts, film, and other media as social texts.
