

# CE10A-10 Health, Welfare and Social Policy

**23/24**

**Department**

Centre for Lifelong Learning

**Level**

Undergraduate Level 1

**Module leader**

Steven Gascoigne

**Credit value**

10

**Module duration**

25 weeks

**Assessment**

100% coursework

**Study locations**

University of Warwick main campus, Coventry Primary

City College, Coventry

North Warwickshire and Hinckley College, Nuneaton campus

---

## Description

### Introductory description

The module introduces students to the major historical developments in social welfare, reviews the major competing analytical 'perspectives' on the post Second World War British welfare state, and considers a variety of contemporary social welfare issues, focusing particularly on poverty and health policy.

### Module aims

The module introduces students to the major historical developments in social welfare, reviews the major competing analytical 'perspectives' on the post Second World War British welfare state, and considers a variety of contemporary social welfare issues, focusing particularly on poverty and health policy.

### Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be

covered. Actual sessions held may differ.

Unit 1: Introducing social policy - This unit will ask; what is a welfare state, what is social policy and why should we study it? It will test student perceptions of welfare, and ask them to investigate a contemporary welfare issue.

Unit 2: Understanding poverty and inequality - As the foundation of understanding government provision and intervention, this unit will explore poverty theory and discourse, and map out inequality in both a British and international context. It will begin to address questions around the relationship between personal problems and social issues, and debate the role of the state in providing for its citizens.

Unit 3: The History of British Welfare - This unit will provide students with a solid understanding of the history of British welfare from the Industrial Revolution to the current "Age of Austerity". It will encourage students to recognise the historically and politically bound nature of our current welfare system, and ask them to identify and justify the most significant moment in the history of British welfare.

## **Learning outcomes**

By the end of the module, students should be able to:

- Understand the history and development of welfare provision in Britain from the 19th century to the present day.
- Identify the main ideological perspective which have influenced these developments and analyse state welfare using critical perspectives.
- Apply the historical and analytical understanding gained to the detailed investigation of a range of contemporary social welfare issues.
- Have further developed transferable skills such as analytical thinking, self-management, study skills, interpersonal skills and written and oral communication skills.

## **Study**

### **Study time**

<b>Type</b>	<b>Required</b>
Lectures	25 sessions of 1 hour (25%)
Seminars	25 sessions of 2 hours (50%)
Tutorials	5 sessions of 3 hours (15%)
Private study	10 hours (10%)
Total	100 hours

### **Private study description**

No private study requirements defined for this module.

## **Costs**

No further costs have been identified for this module.

---

## **Assessment**

You do not need to pass all assessment components to pass the module.

### **Assessment group A**

	<b>Weighting</b>	<b>Study time</b>
Written Assignment 1 (2000 words)	50%	
Written Assignment 2 (1500 words)	35%	
Individual Presentation	15%	

## **Feedback on assessment**

Written and oral.
