## Description

### Introductory description

To understand the basic concepts and principles of contract law and the importance of contract formation in the business world.

To understand the application of contract law in employment and recognise the circumstances in which an employment contract may be terminated.

To introduce students to the basic concepts of the tort of negligence.

To understand what a claimant has to prove to succeed in a negligence claim and to recognise and understand the main defences to a claim in negligence.

To understand the principles imposing liability for professional negligence.

To develop legal skills including analysis of legal problems, and problem-solving techniques which can be applied to analyse a range of hypothetical problems.

To be able to conduct research using official sources of legislation and case-law.

To gain experience in preparing and presenting legal arguments.

To develop an ability to evaluate and criticise legal principles

### Module aims

To understand the basic concepts and principles of contract law and the importance of contract formation in the business world.

To understand the application of contract law in employment and recognise the

circumstances in which an employment contract may be terminated.  
To introduce students to the basic concepts of the tort of negligence.  
To understand what a claimant has to prove to succeed in a negligence claim and to recognise and understand the main defences to a claim in negligence.  
To understand the principles imposing liability for professional negligence.  
To develop legal skills including analysis of legal problems, and problem-solving techniques which can be applied to analyse a range of hypothetical problems.  
To be able to conduct research using official sources of legislation and case-law.  
To gain experience in preparing and presenting legal arguments.  
To develop an ability to evaluate and criticise legal principles
