## Description

### Introductory description

This module builds on the student knowledge of the creative, media and cultural sectors with specific reference to the practicalities of working in these organisations and appreciating the challenges faced by them. It also aims to develop the students' professional skills and confidence honed through practical work experience in an organisation.

### Module aims

The principal aim of the module is to test learning from the Year 1 Media and Creative Industries Case Study and the research undertaken to establish a relationship with an industry. This relationship (undertaken through a total of 4 weeks equivalent experience) will be supported by an evaluation of the operation of the creative, cultural or media organisation.

### Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

The module will be delivered through a series of seminars and students will undertake placement/s totalling 4 weeks.

Areas to be covered in the seminars include:

- Research and writing for industry
- Personal, professional and industrial behaviours and aptitudes
- Strategic and business planning
- Devising policies and action plans
- Tracking progress and professional development
- Independent thinking and working in a team
- Critical reflection on professional practice
- Report writing and gathering evidence of impact

The module will be assessed through a Portfolio of Evidence based on the placement, and will include a detailed SWOT analysis of the organisation where the placement is undertaken.

## **Learning outcomes**

By the end of the module, students should be able to:

- Develop an ability to understand how an organisation makes decisions and creates strategic plans
- Understand the relationships between the organisation's different policies and how they relate to the contemporary landscape of the sectors e.g. how artistic, financial and marketing policies are derived
- Undertake a short placement or work-based study and analyse the operations
- Develop an appreciation of professional working practices and work environments
- Understand and detail the challenges an organisation faces and how it addresses these
- Compile a detailed SWOT analysis for a live organisation of their choice
- Develop professional and networking skills
