100% coursework

Study location

University of Warwick main campus, Coventry

Description

Introductory description

N/A

Module aims

This module aims to: · Relate international trade to the phenomenon of globalisation, particularly in terms of the impact of globalisation on socio-economic and political structures and relations both within and between states · Appreciate the significance of national trade policies in the international trade system and to understand the principal tensions in the contemporary international trading system between countries and regional and multilateral entities. · Examine and analyse the issues at play in the Millennium Round in the light of the conclusions of the Uruguay Round and subsequent developments. · Assess the extent to which the World Trade Organisation has contributed to the evolution of a multilateral trading regime.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be

covered. Actual sessions held may differ.

1. Introduction to and Overview of the Module
2. Thinking About Case Studies
3. Food Poverty and the Politics of Agricultural Trade
4. Health Politics and Trade Related Aspects of Intellectual Property
5. Reading Week: No Class
6. Uneven Development and the Trade in Services
7. Ethics and International Trade I: Environmental Destruction and Protection
8. Ethics and International Trade II: Human Rights and Labour Standards
9. Security and International Trade
10. Review: Structure and Process in the Politics of International Trade

Learning outcomes

By the end of the module, students should be able to:

- Demonstrate a sound grasp of the main theoretical arguments and substantive issues regarding the politics of international trade
- Demonstrate knowledge of the key actors in the political economy of international trade, and the institutions and processes through which they interact
- Apply the knowledge they have gained to questions of policy affecting organisations both in the public and private sectors
- Conduct research to postgraduate level
- Present work coherently and to a high academic standard.
