Module aims

This module aims to provide opportunities for students to undertake structured placements in a variety of arts and cultural organisations. The module will introduce students to considerations in undertaking work in external settings and professional contexts. It will encourage independent engagement on the part of the student (for example by way of approach to particular companies), within an agreed frame of reference concerning opportunities for interaction between students and

professional organisations. It will facilitate the arrangement of placements that are mutually beneficial to the individual and the organisation. It will address processes, practices and requirements concerning safe working, professional responsibility, and any aspects of compliance specific to the organisation or activity in question.

Placements will be undertaken within the terms of the University's guidance concerning placement learning: <https://warwick.ac.uk/services/aro/dar/quality/categories/placementlearning>

- agreed aims of placement [c. 250 words];
- personal review of placement activity in relation to initial aims [750 words];
