Multiple

**Study location** 

University of Warwick main campus, Coventry

# **Description**

# Introductory description

Supply Chain Management capability within business has, over the last decade in particular, taken on a much more significant role in enabling business to gain competitive advantage and deliver bottom line performance. As companies strive to identify their competitive edge, the application of supply chain concepts will continue to exert greater influence on overall business success. This module covers a wide range of topics in supply chain strategies, design, planning, operations and development. Emphasis has been laid mainly on the perspective of integrated supply process. Releasing value in business through relationship management, cost reduction and lean supply have been the key considerations. The module also provides many real would cases, which illustrate ways of achieving enduring business competitiveness.

### Module aims

Supply Chain Management capability within business has, over the last decade in particular, taken on a much more significant role in enabling business to gain competitive advantage and deliver bottom line performance. As companies strive to identify their competitive edge, the application of supply chain concepts will continue to exert greater influence on overall business success. This module covers a wide range of topics in supply chain strategies, design, planning, operations and development. Emphasis has been laid mainly on the perspective of integrated supply process. Releasing value in business through relationship management, cost reduction and lean supply

have been the key considerations. The module also provides many real would cases, which illustrate ways of achieving enduring business competitiveness.

Туре	Required	
Lectures	29 sessions of 1 hour (19%)	
Practical classes	es 8 sessions of 1 hour (5%)	
Other activity	38 hours (25%)	
Assessment	75 hours (50%)	
Total	150 hours	

# Private study description

No private study requirements defined for this module.

### Other activity description

30 hours maintaining a self-reflective log-book 8 hours pre-reading

### **Costs**

No further costs have been identified for this module.

#### **Assessment**

You do not need to pass all assessment components to pass the module.

### **Assessment group A2**

	Weighting	Study time	Eligible for self- certification
Assessed work as specified by department	100%	75 hours	Yes (extension)

A coursework of approximately 6,000 words. Students will be required to examine a relevant situation or practice within their company, undertake an analysis, apply theory and concepts from the background academic literature, compare best practice approaches to addressing issues and challenges, and make recommendations as to the applicability and likely efficacy of such approaches within the company context. This will constitute 100% of total assessment.

### Assessment group R1

#### Weighting Study time Eligible for self-certification

Assessed work as specified by department 100% Yes (extension) 100% Post Module Assignment

#### Feedback on assessment

Immediate oral feedback will be provided after case studies / practical workshops, which will be focussed upon the learning targets of each session. Feedback will also be provided to any questions which arise from students with the lecture session.

Written feedback of approximately 150-250 words will be provided for the Post-Module Assignment within a four week period after the date of submission. This feedback will be focussed upon the strengths and weaknesses of the work with regard to the module learning objectives and the post-module assignment marking guidelines. Suggestions for improvement will also be provided.

# **Availability**

There is currently no information about the courses for which this module is core or optional.
