

# LF136-30 Practical skills for biologists

## 1

**24/25**

**Department**

Life Sciences

**Level**

Undergraduate Level 1

**Module leader**

Beatriz Lagunas

**Credit value**

30

**Module duration**

25 weeks

**Assessment**

Multiple

**Study location**

University of Warwick main campus, Coventry

---

## Description

### Introductory description

This module provides an introduction to the fundamental skills required for all life sciences degrees. The module comprises three teaching categories, tutorial, laboratory and quantitative skill workshop sessions where the different skills are assessed in a synoptic way.

**Tutorial sessions:**

These sessions focus on the teaching of communication skills (both written and oral), information literacy, critical thinking, teamwork, and problem solving.

To identify and support individual pastoral care needs and introduce the referral pathway.

**Laboratory sessions:**

These sessions focus on the teaching of fundamental laboratory skills and techniques, be able to follow protocols for generating good quality data, interpretation and analysis.

**Quantitative skills sessions:**

These sessions focus on the teaching of analytical techniques to interpret data generated in the lab sessions.

### Module aims

Students will gain experience with basic lab techniques, learn to acquire data, analyse and communicate their findings.

## **Outline syllabus**

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

This module provides an introduction to the fundamental skills required for all life sciences degrees. The module comprises three teaching categories, tutorial, laboratory and quantitative skill workshop sessions where the different skills are assessed in a synoptic way.

Tutorial sessions:

These sessions focus on the teaching of communication skills (both written and oral), information literacy, critical thinking, teamwork, and problem solving.

To identify and support individual pastoral care needs and introduce the referral pathway.

Laboratory sessions:

These sessions focus on the teaching of fundamental laboratory skills and techniques, be able to follow protocols for generating good quality data, interpretation and analysis.

Quantitative skills sessions:

These sessions focus on the teaching of analytical techniques to interpret data generated in the lab sessions.

## **Learning outcomes**

By the end of the module, students should be able to:

- Research given topics in the primary and peer-reviewed literature and consolidate relevant information to present a well-structured scientific writing
- To develop and deliver oral presentations, where the delivery style will be appropriate to the topic and audience
- Show development in their critical analytical skills
- Understand the scientific method to perform hypothesis-driven simple experiments, with due regard to appropriate accuracy and detail
- Develop an understanding of the need for statistical analysis when interpreting biological data
- Understand the basic principles of modelling biological populations
- Understand the importance of good laboratory practice
- Understand the relevance of presenting data professionally

## **Subject specific skills**

- Research given topics in the primary and peer-reviewed literature and consolidate relevant information to present a well-structured scientific writing
- To develop and deliver oral presentations where the content accuracy and the delivery style will be appropriate to the topic and audience
- Develop familiarity with basic hands-on technical skills and good laboratory practice

## Transferable skills

- Communication
  - Critical thinking
  - Digital literacy
  - Information literacy
  - Professionalism
  - Problem solving
  - Teamwork
- 

## Study

### Study time

Type	Required
Tutorials	18 sessions of 1 hour (6%)
Practical classes	12 sessions of 2 hours (8%)
Supervised practical classes	12 sessions of 6 hours (24%)
Private study	186 hours (62%)
Total	300 hours

### Private study description

Preparations for labs, quant skill workshop and tutorials and completion of coursework

### Costs

No further costs have been identified for this module.

---

## Assessment

You do not need to pass all assessment components to pass the module.

### Assessment group A

	Weighting	Study time
Lab report 2	6%	
Lab report 2 (lab report 1 is formative)		
Lab report 3	6%	

	<b>Weighting</b>	<b>Study time</b>
Lab report 3 (lab report 1 is formative)		
Lab report 4	6%	
Lab report 4 (lab report 1 is formative)		
Hands-on technical skills	12%	
Skills assessed in the lab classes, each on a pass/fail basis. The mark awarded will be the percentage of those passed.		
Complex lab skills	12%	
Skills assessed in the lab classes, each scored on a scale of competence.		
Lab Safety	6%	
Skills assessed in advance of the lab classes, each on a pass/fail basis. The mark awarded will be the percentage of those passed.		
Hands-on quantitative skills	8%	
Skills assessed in the lab classes, each scored on a scale of competence.		
Scientific writing	8%	
Scientific writing to assess ability to synthesise information from different sources		
Oral presentation	8%	
Oral presentation to assess ability to synthesise information from different sources		
Poster presentation	8%	
Poster presentation to assess ability to synthesise information from different sources		
Quantitative skill assessment	20%	
Quantitative skill assessment to assess knowledge of data analysis techniques not assessed in lab reports or continuously in the workshops		

## **Assessment group R**

	<b>Weighting</b>	<b>Study time</b>
No reassessment	100%	
This module is not reassessed		

## **Feedback on assessment**

Individual written feedback on scientific writing (oral and poster presentations), and lab reports. Oral feedback is given for formative work and lab assessed skills. Cohort-level feedback for quant skills assignments.

## Courses

This module is Core for:

- Year 1 of UBSA-C700 Undergraduate Biochemistry
- ULFA-C1A2 Undergraduate Biochemistry (MBio)
  - Year 1 of C1A2 Biochemistry
  - Year 1 of C700 Biochemistry
- Year 1 of ULFA-C702 Undergraduate Biochemistry (with Placement Year)
- Year 1 of ULFA-C1A6 Undergraduate Biochemistry with Industrial Placement (MBio)
- UBSA-3 Undergraduate Biological Sciences
  - Year 1 of C100 Biological Sciences
  - Year 1 of C100 Biological Sciences
  - Year 1 of C102 Biological Sciences with Cell Biology
  - Year 1 of C103 Biological Sciences with Environmental Resources
  - Year 1 of C104 Biological Sciences with Microbiology
  - Year 1 of C105 Biological Sciences with Molecular Genetics
  - Year 1 of C107 Biological Sciences with Virology
- Year 1 of ULFA-C1A1 Undergraduate Biological Sciences (MBio)
- Year 1 of ULFA-C113 Undergraduate Biological Sciences (with Placement Year)
- Year 1 of ULFA-C1A5 Undergraduate Biological Sciences with Industrial Placement (MBio)
- UBSA-C1B9 Undergraduate Biomedical Science
  - Year 1 of C1B9 Biomedical Science
  - Year 1 of C1B9 Biomedical Science
  - Year 1 of C1B9 Biomedical Science
- ULFA-C1A3 Undergraduate Biomedical Science (MBio)
  - Year 1 of C1A3 Biomedical Science
  - Year 1 of C1B9 Biomedical Science
- Year 1 of ULFA-C1A7 Undergraduate Biomedical Science with Industrial Placement (MBio)
- ULFA-CB18 Undergraduate Biomedical Science with Placement Year
  - Year 1 of CB18 Biomedical Science with Placement Year
  - Year 1 of CB18 Biomedical Science with Placement Year
  - Year 1 of CB18 Biomedical Science with Placement Year
- UIPA-C1L8 Undergraduate Life Sciences and Global Sustainable Development
  - Year 1 of C1L8 Life Sciences and Global Sustainable Development
  - Year 1 of C1LA Life Sciences and Global Sustainable Development: Biological Sciences
  - Year 1 of C1LB Life Sciences and Global Sustainable Development: Ecology
- Year 1 of ULFA-B140 Undergraduate Neuroscience (BSc)
- Year 1 of ULFA-B142 Undergraduate Neuroscience (MBio)
- Year 1 of ULFA-B143 Undergraduate Neuroscience (with Industrial Placement) (MBio)
- Year 1 of ULFA-B141 Undergraduate Neuroscience (with Placement Year) (BSc)
