## Description

### Introductory description

N/A

### Module aims

The principle aims of this core module are to enable students to:

- Understand how to analyse the social world through the lens of class relations, economic structure and political economy developing familiarity with key perspectives in sociology and sociological theory;
- Think critically about class, capitalism, economic inequality and power in the contemporary world;
- Become familiar with the recent history of economic restructuring and develop a firm grasp of the concept of neoliberalism;
- Understand and think critically about the links between neoliberalism, class, race, gender, power, culture, emotions, identity, work and consumption;
- Become familiar with the impact of neoliberalism in the global south as well as in the global north;

- Develop understanding of global sociology, particularly in terms of the links between transnational economic change and diverse social and political issues;
- Develop skills in critical thinking, sociological analysis and writing.

## Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

1. Introduction: Class and Capitalism in a Neoliberal World
2. Neoliberalism, Privatisation and the Fall of the Social State in the Global South
3. Neoliberalism, Privatisation and the Fall of the Socialist State in South East Europe
4. Neoliberalism, Privatisation and the Fall of the Social State in the UK and USA
5. Deindustrialisation and the Transformation of Work
6. Reading Week
7. Theories of class
8. Bourdieu: class distinction
9. The superwealthy
10. Inequality and Global Unrest

## Learning outcomes

By the end of the module, students should be able to:

- Understand how to analyse the social world through the lens of class relations, economic structure and political economy.
- Think critically about class, capitalism, economic inequality and power in the contemporary world.
- Be familiar with the recent history of economic restructuring and have a firm grasp of the concept and history of neoliberalism in the global south as well as the global north.
- Have a greater understanding and ability to think critically about the links between neoliberalism, class, race, gender, power, policing, culture, emotions, identity, work and consumption.
- Have a greater understanding of global sociology, particularly in terms of the links between transnational economic change and diverse social and political issues.
