

EC9D3-30 Microeconomics B

26/27

Department

Economics

Level

Taught Postgraduate Level

Module leader

Daniele Condorelli

Credit value

30

Module duration

9 weeks

Assessment

Multiple

Study location

University of Warwick main campus, Coventry

Description

Introductory description

EC9D3-30 Microeconomics B

[Module web page](#)

Module aims

To enable students to acquire a rigorous understanding of key microeconomic principles, covering some of the most important topics, concepts and methods used in modern microeconomic analysis, along with relevant evidence and applications.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

The syllabus may cover, but is not limited to, the following areas:

Consumer theory, producer theory, general equilibrium, equilibrium over time and under uncertainty, social choice, game theory, incomplete information, extensive games and mechanism design.

Learning outcomes

By the end of the module, students should be able to:

- Subject Knowledge and Understanding:...demonstrate a rigorous understanding of the mathematical foundations of microeconomic analysis.
- Subject Knowledge and Understanding:...demonstrate a rigorous understanding of applications of microeconomic theory.
- Subject Knowledge and Understanding:...demonstrate a rigorous understanding of microeconomic concepts in the areas of game theory, information economics and choice under uncertainty.

Indicative reading list

[Reading lists can be found in Talis](#)

[Specific reading list for the module](#)

Subject specific skills

Applied Economics
Economic Information
Economic Principles
Research and Debate
Abstraction
Analysis of Incentives
Analysis of Optimisation
Analytical Reasoning
Analytical thinking and communication
Concepts of Simultaneity and Endogeneity
Creative Thinking
Critical Thinking
Policy Evaluation
Problem Solving
Strategic Thinking
Understanding of Uncertainty and Incomplete Information

Transferable skills

IT skills
Numeracy and Quantitative Skills
Information Technology
Mathematical, statistical, data-based research skills
Oral Communication
Written Communication

Study

Study time

| Type | Required |
|---------------|-----------------------------|
| Lectures | 36 sessions of 1 hour (12%) |
| Seminars | 8 sessions of 1 hour (3%) |
| Private study | 256 hours (85%) |
| Total | 300 hours |

Private study description

Private study will be required in order to prepare for seminars/classes, to review lecture notes, to prepare for forthcoming assessments, tests, and exams, and to undertake wider reading around the subject.

Costs

No further costs have been identified for this module.

Assessment

You do not need to pass all assessment components to pass the module.

Assessment group D4

| | Weighting | Study time | Eligible for self-certification |
|--|-----------|------------|---------------------------------|
| Test 1 Micro B | 5% | | No |
| Test 2 Micro B | 5% | | No |
| Centrally-timetabled examination (On-campus) | 90% | | No |
| 3 hour exam plus 15 minutes reading time | | | |

- Students may use a calculator
- Answerbook Green (8 page)

Assessment group R3

| | Weighting | Study time | Eligible for self-certification |
|---|------------------|-------------------|--|
| In-person Examination 3 hour exam plus 15 minutes reading time | 100% | | No |

Feedback on assessment

The Department of Economics is committed to providing high quality and timely feedback to students on their assessed work, to enable them to review and continuously improve their work. We are dedicated to ensuring feedback is returned to students within 20 University working days of their assessment deadline. Feedback for assignments is returned either on a standardised assessment feedback cover sheet which gives information both by tick boxes and by free comments or via free text comments on Tabula, together with the annotated assignment. For tests and problem sets, students receive solutions as an important form of feedback and their marked assignment, with a breakdown of marks and comments by question and sub-question. Students are informed how to access their feedback, either by collecting from the Department of Economics Postgraduate Office or via Tabula. Module leaders often provide generic feedback for the cohort outlining what was done well, less well, and what was expected on the assignment and any other common themes. This feedback also includes a cumulative distribution function with summary statistics so students can review their performance in relation to the cohort. This feedback is in addition to the individual-specific feedback on assessment performance.

Availability

Pre-requisites

The module demands a deep understanding of core undergraduate microeconomic principles, and a good understanding of mathematical methods such as constrained optimisation.

Courses

This module is Core optional for:

- Year 1 of TECS-C8P8 Postgraduate Taught Behavioural and Economics Science (Economics Track)
- Year 1 of TECA-L1P6 Postgraduate Taught Economics
- Year 1 of TECA-L1P7 Postgraduate Taught Economics and International Financial Economics

This module is Optional for:

- Year 4 of USTA-G300 Undergraduate Master of Mathematics, Operational Research, Statistics and Economics
