Jochem Hummel

Credit value

15

Module duration

10 weeks

Assessment

30% coursework, 70% exam

Study location

University of Warwick main campus, Coventry

Description

Introductory description

This is an elective module available for WBS and non-WBS students. To find detailed availability and to apply for this module, log in to my.wbs.ac.uk using your normal IT login details and apply via the my.wbs module application system. Once you've secured a place on my.wbs you should apply via your home department's usual process, which usually takes place via eVision.

Note that you do not require the module leader's permission to study a WBS module, so please do not contact them to request it.

Module aims

Due to digitalization of the economy the role of information technology and information systems in business organisations is changing rapidly. Students will learn to think strategically about information systems and how to avoid the worst pitfalls of organisational information technology and systems. This entails 1) understanding what does strategy and competitive advantage mean, 2) learning to identify the competitive potential of information technologies in different contexts,

and 3) recognising key management issues to be addressed in organisational information technology and systems with respect to business strategy. The module explores these three dimensions with respect to several key information technology and systems management topics.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

The module takes place as one three-hour session per week. The sessions typically consist of a lecture, group work and a plenary in discussing a case study on the weekly topic. The module covers key IS/IT management topic from a strategic perspective such as:

- Strategy and competitive advantage
- Knowledge and information asset management
- Sourcing and cloud computing
- Information security and privacy
- Digital platforms and ecosystems
- The execution of IT projects
- Current hot topics (e.g. sharing economy, business analytics and future technologies)

Learning outcomes

By the end of the module, students should be able to:

- An understanding of the role of information and information systems in business organisations.
- An increased understanding of the role that IT can play in business by applying concepts and frameworks from the course in the context of real business scenarios.
- An insight into the strategic management issues associated with the planning, development and implementation of IT/IS in organisations.
- Analyse various real-life technologies using theories of strategy.

Indicative reading list
