Module duration

2 weeks

Assessment

100% coursework

Study location

University of Warwick main campus, Coventry

Description

Introductory description

The primary goal of this module is to provide students with a solid foundation in the essentials of business strategy development and implementation.

[Module web page](#)

Module aims

This module offers an integrated view of the role and importance of strategy and strategic management within the wider business context and more specifically, the biotechnology/bioprocessing context.

The focus is on understanding the development of business and corporate strategy, the formulation of strategic plans, and the implementation of those plans to achieve strategic goals and in a biotechnology/bioprocessing context in particular.

Outline syllabus

This is an indicative module outline only to give an indication of the sort of topics that may be covered. Actual sessions held may differ.

Typically, the syllabus material includes (but is not limited to):

The Concept of Strategy;

Tools of Strategy Analysis (Goals, Values, and Performance; Industry Analysis; Competitive Analysis; Analysing Resources and Capabilities; Organization Structure and Management Systems);

Business Strategy and the Quest for Competitive Advantage (Sources and Dimensions of Competitive Advantage; Technology-based Industries and the Management of Innovation);

Corporate Strategy (Global Strategy; Growth Strategies)

Learning outcomes

By the end of the module, students should be able to:

- Critically evaluate the role and importance of strategy within business contexts.
- Identify and evaluate key factors affecting strategic decisions.
- Explain and apply the terminologies, concepts and analytical frameworks relevant to strategic planning and implementation.
- Research, synthesise and apply appropriate strategic tools and evidence to evaluate real world and practical business scenarios.
- Formulate justified strategic recommendations for particular businesses, based on advanced strategy analysis.
- Synthesise and present strategic findings, analyses and recommendations using precise, professional, and discipline appropriate language.

Indicative reading list

[Reading lists can be found in Talis](#)

[Specific reading list for the module](#)

Subject specific skills

Strategy analyses and developing recommendations for particular businesses.

Transferable skills

Improve business presentation skills.

Identify and evaluate key factors affecting strategic decisions.

Communicate findings in appropriate language/terminologies.

Study

Study time

Type	Required
Lectures	15 sessions of 1 hour (15%)
Seminars	(0%)
Practical classes	10 sessions of 1 hour (10%)
Private study	50 hours (50%)
Assessment	25 hours (25%)
Total	100 hours

Costs

No further costs have been identified for this module.

Assessment

You do not need to pass all assessment components to pass the module.

Assessment group A4

Assessment component	Weighting	Study time	Eligible for self-certification
Written Assignment (2,000 words)	100%	25 hours	Yes (extension)

Written assignment requiring the student to integrate some learnings from across the module. A single individual assignment counting for 100% of the module mark is feasible as the assignment brief is to have sections to it that require the student to (part 1 counting 60%) describe, discuss and critically evaluate a business strategy for a firm of their choice, (part 2 counting 20%) integrate business strategy learnings from a case study the student's group was assigned and presented on during the module, and (part 3 counting 20%) integrate business strategy learnings from the student's group's final business strategy simulation presentation. Source material is to be from lecture content, assigned reading, and their business strategy simulation online resources. Required content is to include references to relevant business concepts, models and frameworks as appropriate. The full wording of the assessment brief will be provided in the

Weighting

Study time

Eligible for self-certification

module outline posted on Moodle at the start of the module as is the current practice.

Reassessment component is the same

Feedback on assessment

Written individual feedback to each student on written assignment. Face-to-face feedback on any assessment provided on request from the student.

Availability

Courses

This module is Core for:

- Year 1 of TLFS-J7N2 Postgraduate Medical Biotechnology and Business Management
- Year 1 of TBSS-C5N2 Postgraduate Taught Biotechnology, Bioprocessing and Business Management

This module is Core optional for:

- Year 1 of THRA-D4A1 Postgraduate Taught Environmental Bioscience in a Changing Climate
- THRA-D4A3 Postgraduate Taught Food Security
 - Year 1 of D4A3 Food Security
 - Year 1 of D4A3 Food Security
- Year 1 of THRA-D4A2 Postgraduate Taught Sustainable Crop Production: Agronomy for the 21st Century

This module is Optional for:

- TCHA-F1PW Postgraduate Taught Polymer Science
 - Year 1 of F1PW Polymer Science
 - Year 2 of F1PW Polymer Science
